

SPECIAL / CUSTOM GEARBOXES

Using standard designs as starting points, with the addition of appropriate modifications custom built units are the results that comply with customers' unique requirements. Examples of such modifications include:

- Custom output / input shafts
- Stainless Steel
- High vacuum / high pressure
- Increased torque
- Increased service life
- Dry lubrication
- High / low temperature
- Withstand high radiation
- Custom gear ratio
- Autoclaveable
- Integrated gear stages
- Custom motor-gearbox coupling

More special and custom versions upon request
